

Programme 2-2: PHYSIOLOGICAL INVESTIGATIONS
ON GROWTH PRODUCTIVITY AND FLOWERING IN
SUGARCANE

P1-00/2-2-4	Induction and synchronisation of flowering in Saccharum species and commercial hybrids for utilisation in the breeding programme
P1-11/2-2-15	Energy production potential of sugarcane
P1-12/2-2-17	Interactive effects of salinity and drought on nutrient status of sugarcane genotypes
P1-13/2-2-18	Response of sugarcane to high temperature stress
